Summary

B.Tech Computer Science student at KIIT University (Class of 2027) with strong foundations in C++, Data Structures, DBMS, and Operating Systems. Experienced in building AI-powered and full-stack applications using MERN stack and Spring Boot. Seeking a Software Development Internship to apply problem-solving skills in real-world projects.

Projects

- **AI-Powered Code Review API** (Spring Boot, REST API, Gemini API, Postman)
  Developed a Spring Boot REST API that analyzes user-submitted code and generates AI-based improvement suggestions using the Google Gemini API. Designed a scalable Controller–Service–Model backend and tested endpoints with Postman for automated code review.
- **MERN Money Tracker App** (MongoDB, Express, React, Node.js)
  Built a full-stack expense tracker to record and visualize income/expenses with authentication, validation, and MongoDB Atlas storage.
- **Task Management App** (Java, Spring Boot, React, MySQL)
  Developed a full-stack task manager with login, JWT authentication, and CRUD functionality.

Education

Kalinga Institute of Industrial Technology — Bhubaneswar, India
Bachelor of Technology in Computer Science & Engineering; GPA: 7.87/10.00 — June 2023 – Present

KIIT Higher Secondary School — Bhubaneswar, India
CHSE Board; GPA: 7.67/10.00 — April 2023

Saint Lawrence School — Bhubaneswar, India
ICSE Board; GPA: 7.75/10.00 — April 2021

Achievements And Activities

- Solved 80+ coding challenges on LeetCode using C++, strengthening problem-solving and logical thinking skills.
- Completed comprehensive courses on C++ and Data Structures & Algorithms (Udemy), building strong OOP and DSA fundamentals.
- Gained practical knowledge of SQL and Database Management Systems through online learning.

Skills

- **Languages:** C++ (OOP, STL), SQL, Java (basics)
- **Core CS:** Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks
- **Key Abilities:** Problem-solving, debugging, writing clean code, quick learner

Certifications

- Mastering Data Structures & Algorithms using C and C++
- Fundamentals of SQL & Database Management Systems
- Basics of Operating Systems & Linux Shell Scripts
